SURVEYOR'S NARRATIVE OF THE CORNER:
At the Angle Point we found a set stone with chiseled markings on its north face, could not make out letters. Stone measures 9" x 12" x 14" and was surrounded by a mound of stones 36" in diameter by 9" high. We removed the stone and replaced it with a 3/4" rebar fitted with a 2.5" 2009 Uintah County Surveyor Aluminum Cap, marked for the Angle Point. We placed the marked stone at east edge of cap and re-built the mound of stones around cap.
